I love the game design and the graphics, playing it was very fun.. I love the game design and the graphics, playing it was very fun.. Just completed level 2 and definitely enjoying this game. It's a stealth/platform/puzzle game that will test both your reflexes and your brain. The graphic style is quite interesting and original, harkening back to old ZX Spectrum-like aesthetic, with an interesting lighting system. Gameplay-wise, it might be argued that the game becomes a bit frustrating/taxing even in the second level, but it never feels unfair, just more challenging than the average. Controls are not perfect, but are better with the d-pad rather than with the analog stick. Overall I definitely do recommend this game. It's a pity it went mostly ignored at launch..
